

How To Get The Tide Book On Your iPhone [iPad and Android follow the same steps]

The tide book is located here: <http://www.macdelriv.org/tidebook>

To store it on your iPhone so you can quickly access it even without internet or cell service, follow the steps below [**highly recommended**]:

- 1.) Open the App Store () on your iPhone and search for 'Adobe Reader'
- 2.) Install this free app
- 3.) Open up Safari () and type this into the address bar: <http://www.macdelriv.org/tidebook>
- 4.) Once the tide book is loaded (this can take several seconds), click on the middle of the tide book and a few options will appear at the top. Click 'Open In Adobe Reader'.

It is now saved in Adobe Reader!

To open the tide book again, go into the Adobe Reader app () and you should see the tide book listed in your document list. Click on it to open.
